

Tennessee General Assembly  
STATE OF TENNESSEE

NASHVILLE

Mr. Cowles,

We wanted to write this letter regarding the Office of Customer Focused Government's Strategies for Efficiency in Real Estate Management (SEREM) program.

While we share the mission to provide state services at the lowest cost to the taxpayer, we do have reservations about current outsourcing efforts.

Our reservations include the potential impact to state employees, the scope of "vested outsourcing" to state services, and allowing enough time to address concerns from the General Assembly.

We respectfully request that the outsourcing process wait until the General Assembly is able to study and understand the effects on our public services, economy, and state workers.

I hope we can continue to have dialogue on this matter as we move towards making Tennessee State government work better.

Sincerely,
